COMPLEX OF AMORAL POWER:
THE CORE OF DESTRUCTIVE INSTITUTIONS AND AUTHORITARIANISM
Summary – 30 Dec 2022
Michael J. Fargano

The Complex of Amoral Power (CoAP) is a reference model of a foundational social complex that is at the core of Destructive Institutions (DIs) and Authoritarianism. There can be DIs for profit (e.g., driving crises for profit such as the Climate Crisis) or Destructive Governments (e.g., Authoritarian Regimes).

A CoAP is at the ultimate cause level of all DIs using malignant dynamics to sustain and grow profits and power:

> **Complex of Amoral Power**: A social complex characterized by amoral mutual self-preservation and growth relationships between and among: (1) the power of money/reward (capability), (2) the power of governmental/governance policy and enforcement (capability) and (3) the power of communications/influence (capability) that results in amoral (or corrupt) money/reward flows, government policy/enforcement actions and communications/influence transmissions.

The key malignant dynamics of a CoAP driving out-of-control DIs are:

> – **DI Brainhacking** (cognitive plays, e.g., propaganda, disinformation, conspiracy theories and science denial) for mass influence and control of populations to reduce opposition to, and increase support for the DI(s). This malignant dynamic is in effect the cancellation of a negative feedback loop that then drives DIs to become out-of-control in society.
>
> – **Legalized corruption** (e.g., virtually out-of-control legalized money/reward flows that support politicians) to gain laws, regulations, subsidies and enforcements favorable to DI(s). This malignant dynamic is in effect an un-throttled positive feedback loop of rewards making for out-of-control rewards that then drives DIs to become out-of-control in society.

The CoAP framework is a model of collusion that has been normalized in society similar to industry trusts before antitrust laws made such collusion illegal. A CoAP under stress will respond with the increased use of malignant dynamics driving an enemies mindset and supporting policies. This results in the radicalization of populations working towards authoritarianism.
